Forever Security Screens

Security and Storm Protection - Built to Last

Inswinging Safe-S-Capes® provide security with peace of mind

Crimsafe's unique Inswing Safe-S-Cape® security and storm windows are designed to be installed on the inside of buildings and swing inwards. They feature a keyless lock system that releases with a simple turn and pull of the release handle, without compromising security. It lets you quickly exit your home in the event of a fire or other emergency. When closed, Crimsafe's Inswing Safe-S-Cape® window is secured with a triple "anti-jimmy" locking system that cannot be effectively pried open, kicked down or cut; ensuring your home is safe and secure.

Crimsafe Safe-S-Cape® windows enhance your lifestyle and safety. They allow you to keep your regular windows open to help keep you home cooler in the summer and enjoy the fresh air all year round without compromising your safety or security. Crimsafe's Tensile-Tuff® mesh helps to reduce solar heat gain by 53% while allowing for unhindered visibility from your home. Crimsafe windows also work as fly screens, allowing airflow in while bugs and other intruders are kept out!

Unlike traditional security grills or windows fitted with bars, Crimsafe is a stylish product that will complement any decor. Crimsafe products are nearly impossible to cut, kick down or pry open, ensuring your home is safe and secure. Crimsafe's stylish Inswing Safe-S-Cape® windows enhance your home, while providing your family year-round safety and peace of mind.

Features & Benefits Inswing Safe-S-Capes®

Expert installation	Crimsafe Security products are custom built off-site then quickly installed at your home by a Crimsafe Licensed Dealer.
Keyless exit and quick release	Peace of mind, knowing that in an emergency you can get out of the house fast thanks to the turn and pull release.
Full length locking stile	Increased strength due to continuous contact with the frame.
Three-tier Anti-jimmy System	A burglar must get through 3 physical barriers to get at the Safe-S-Cape's lock.
Easy access to surface window	Crimsafe panel swings away from the interior window surface, enabling easy cleaning.
304 Tensile-Tuff® security mesh	At .9mm in diameter, Crimsafe's Tensile-Tuff® stainless steel security mesh is up to 26% thicker than other mesh products on the market, making it stronger and harder to cut or penetrate.
Screw-clamped™ security	Only Crimsafe clamps 304 Tensile Tuff® Security Mesh between 2 serrated pieces of metal, then drives a screw right through both mesh and frame to ensure a 'vice-like' grip...and beat more burglars.
Tamper-resistant screws	Exclusive to Crimsafe. Screws can only be inserted or removed by a tool registered with Crimsafe. This ensures the integrity of your security system.
Custom built	Means a perfectly fitted job. Product can be made to fit the design and format of your windows.
Enhanced lifestyle	Crimsafe provides unhindered views, keeps out mosquitoes, and lets you keep a cool, safe house all year round.
Solar heat gain	Solar heat gain is reduced by up to 53% reducing dependence on air-conditioning.
Passes industry standards	Crimsafe always exceeds the relevant Industry Standards for security.
Range of colors	Crimsafe stocks a range of standard colors so that the system you buy complements your home.
Guaranteed for 10 years	Crimsafe warrants the product from defects in materials under the conditions of normal use for up to 10 years from the date of purchase. Please refer to our Care Guide for more information.

Applications

- Single and Multi-Panels Sliding Windows
- Single and Double Hung Windows
- Casement and Multi-Casement Windows
- Jalousie Windows
- Awning Windows
- Fixed and Sliding Combinations

All Crimsafe products feature our patented Crimsafe Screw-Clamp™ technology. Tamper resistant screws first go through a metal clamp, then through Crimsafe's Tensile-Tuff® mesh and then driven right into the frame, to hold the mesh in a "vice like" grip. This patented Screw-Clamp® gives Crimsafe screens enormous strength against attack, unlike inferior products that simply glue or wedge mesh into a frame.
